PUT THE POWER OF UC SAN DIEGO EXTENDED STUDIES TO WORK FOR YOU

Every successful organization needs skilled workers and an evolving pipeline of talent to draw from to keep pace with a quickly changing workplace. When a company makes education a top priority, everyone wins. Employees are more skilled and confident. Teams perform better. Organizations increase the capacity and value of their workforce when employees become more intuitively and analytically competent.

UC San Diego Extended Studies custom training empowers workforces and helps businesses identify organizational skills gaps creating a tactical training plan to fill them.

Some of San Diego’s most successful companies use customized training from UC San Diego Extended Studies to inject their organization with concise, up-to-date competencies that help them reach their goals faster and smarter than their competitors.
