

MCLE CREDIT PENDING / ENVIROCERT CREDITS APPROVED

THE NEW CALIFORNIA CONSTRUCTION GENERAL PERMIT

LEARN FROM EXPERTS' BEST PRACTICES AND LESSONS LEARNED FROM YEARS OF IMPLEMENTING THE CGP

This intensive workshop spans two half-days and offers thorough training to help owners and operators of construction projects, consultants, engineers, and legal professionals to fully understand the New California Stormwater Construction General Permit (CGP). The course fee covers materials, instruction by CASQA qualified Trainers of Record, lunch, refreshments, and a Certificate of Completion.

DAY 1: PERMIT FUNDAMENTALS

Gain an orientation to the California Construction General Permit (CGP) 2022-0057-DWQ. Topics Include:

- Understanding the Permit: Covered Facilities, Risk Assessment, SWPPPs, and SMARTS
- Legal Perspectives, Complexities, Liabilities and Common Pitfalls.
- Regulator Perspective – Interpretation of the Reissued Permit

DAY 2: FIELD IMPLEMENTATION

Learn from industry experts about:

- QSD / QSP Responsibilities
- Qualifying Precipitation Events
- Visual Monitoring and Sampling Requirements
- Passive Treatment Technologies / Active Treatment Systems
- Demolition Activities
- TDML Requirements
- Interactive Exercises
- Additional Regulator Insights
