OUR MISSION

The Sally Ride Science Academy offers fascinating and fun learning experiences in science, technology, engineering, arts and math (STEAM) designed for students entering K-12th grade during the school year. During classes and workshops, students take on the roles of space explorer, marine biologist or computer engineer as they immerse themselves in hands-on projects.

Top-notch STEAM instructors lead these classes and workshops, serving as both teachers and role models. Their examples inspire students and help make STEAM careers more accessible.
